WEEKLY WORLD EVENTS INTELLIGENCE SUMMARY
DTG: 011530 CST NOV 26 (America/Chicago)
PERIOD COVERED: 26 October – 1 November 2026
PREPARED FOR: Informational use
CLASSIFICATION: UNCLASSIFIED // FOR INFORMATIONAL USE

EXECUTIVE SUMMARY

ARCHIVE NOTE: This weekly synthesizes daily/2026-10-26 through daily/2026-11-01 plus a fresh 01 NOV afternoon cross-check. Daylight saving time ended at 0200 on 01 NOV, so this DTG is in CST. The week's headline: still no US strike on Iran, but the strike option is now fully built and the decision sits right after Tuesday's vote. CNN reported US forces could launch major operations "within 96 hours" of an order; the WSJ, AP, and Axios reported Gulf allies were told to prepare for a short, intense campaign after 03 NOV (Axios: possibly seven days), and MSNOW's Gulf sources said as early as 04 NOV. Adm. Cooper briefed Trump in person on 29 OCT. Trump says no strike before the election and "anything's possible" after; on 31 OCT he said remaining sites, including Pickaxe Mountain, could be hit "in ten minutes," while Rubio said he "hasn't made a decision." Iran's Supreme Leader ordered a response "without geographical limitations," and security chief Rezaei floated leaving the NPT. Diplomacy ran in parallel: a four-nation meeting in Tehran, a Vance letter to Rezaei via Qatar, and three days of Qatari talks in Doha, where Iran says it can reopen Hormuz within two days if its conditions are met. A Qatari report of a US "breakthrough" and a US delegation was denied. At sea, UKMTO went from 182-26 to 188-26, including the war's first successful limpet-mine attack (Louise 1) and a projectile strike on a Qatari LNG carrier (Al Mayeda). The US death toll rose to 23 and the war's cost passed $47 billion. Hegseth fired the Joint Staff's top planner over leaks. Economy: the Fed held 10–2 with two hike dissents, Q3 GDP grew 3.4%, PCE inflation hit 3.6%, Intel's 28.6% drop led the worst stock day since June, and Brent's December contract ended October near $117.6. Russia–Ukraine: the Melania Trump-brokered Oleshky truce held about 87 hours and evacuated more than 750 people. Courts rejected DOJ's California ballot bid three times; DOJ is sending about 1,000 election monitors Tuesday. Minnesota: Hennepin County charged James O'Keefe and Cam Higby; the Omar probe widened in the press but she remains uncharged; early voting is at a record. MN regular $4.0887 / diesel $6.1606 (AAA 01 NOV); debt $40.594T (29 OCT).

KEY JUDGMENTS

1. A US strike campaign on Iran in the days after 03 NOV is the most likely outcome unless the Doha track produces a signed first step before then. Readiness (96 hours), force flow, ally warnings, and the President's own words all point to it; the only public brakes are the pre-election pledge and an undecided President (MODERATE-HIGH).
2. If strikes resume, Iranian retaliation is likely to be broader than in earlier rounds: Khamenei's "without geographical limitations" order, the updated target list, and Rezaei's NPT remark all signal escalation against US bases, Gulf energy, and shipping (MODERATE).

3. The Gulf shipping threat is widening, not shrinking. Attacks now include limpet mines placed from small boats and projectile strikes in the central Gulf, which mine clearance does not address. JMIC rates Hormuz "SEVERE" and traffic remains about 70% below pre-war (HIGH).
4. The US economy is running hot on growth and inflation at the same time: 3.4% GDP, 3.6% PCE, a 10-year near 5%, and two Fed hike dissents. A December hike is a live possibility, while the AI earnings selloff is cutting into stock wealth heading into the vote (MODERATE-HIGH).
5. DOJ's pre-election push on ballots has failed in court for now, but federal monitors, the Alaska certification suit, and open probes (Omar, Swalwell donor, Comey) make post-election legal fights likely in several states (MODERATE-HIGH).
6. The Omar investigation will not resolve before Tuesday. DOJ says the search warrant is only partly executed and no charging decision exists; any filing would come after the election (MODERATE-HIGH).

ITEM 1: Iran strike track and force posture — "96 hours" readiness; allies told to prepare for a short post-midterm campaign; Cooper briefs Trump; "ten minutes" for Pickaxe Mountain; Khamenei orders retaliation "without geographical limitations" (Significance: HIGH)

WHAT / WHERE / WHEN

25 OCT–01 NOV Washington / Gulf / Tehran / Israel. Sun 25 OCT on Fox, Trump said, "I have a decision to make: Do I finish it off, which would be very easy to do, or do I make a deal?" and later "There will not be a strike today"; Bloomberg quoted "getting to be decision time," and he named Pickaxe Mountain: "We know exactly what's going on at Pickaxe Mountain" (CNBC). Mon 26 OCT CNN (two US officials) reported US forces could launch major operations "within 96 hours" of an order against a target list including energy infrastructure, military sites, and nuclear facilities; officials said Trump "appears to be leaning toward ordering major action," most likely after the midterms; nonessential troops in the next rotation will not be sent. Tue 27 OCT Trump: "I can't tell you that… but anything's possible." Wed 28 OCT the WSJ reported several Gulf states were told to prepare for a short, intense campaign after the midterms, with a Patriot system moving from Texas, troops pulled back from vulnerable bases, and munitions restocked. Reuters and CBS put the war's US military cost at $47.1 billion through 16 OCT (more than $29 billion for munitions). Thu 29 OCT AP (two diplomats) said allies were told to prepare for renewed action and Iranian retaliation against energy sites; Axios reported a possible seven-day US–Israeli operation and that IDF chief Zamir and Adm. Cooper spoke on 26 OCT. That day Cooper briefed Trump at the White House with Vance, Hegseth, Bessent, Gen. Caine, Witkoff, Wright, and Wiles (WSJ, Axios). Fri 30 OCT the Pentagon's casualty portal listed 23 US service member deaths in the war (11 enemy fire, 12 nonhostile). Two US officials said the USS Theodore Roosevelt group and the 13th MEU will reach the region by late November, joining the George H.W. Bush and George Washington; MSNOW (three Gulf officials) reported strikes possible as early as 04 NOV; OSINT flight tracking showed more than 10 US military transports landing in Israel over a week. Sat 31 OCT Khamenei's office said he ordered "an immediate and effective response, without geographical limitations" and an updated "target bank" of US and Israeli assets; armed forces chief Abdollahi said a new target list across a broader area is being prepared. Rubio at the G20 in Atlanta: Trump "hasn't made a decision"; Trump: "one or two sites" remain, including Pickaxe Mountain, "We can do it in ten minutes. We have a plan for it." Rezaei: "It is uncertain whether we will remain in the NPT if another war begins." Sen. Chris Murphy, briefed on the plan, called it "insane." Israel's 27 OCT election ended with Netanyahu's bloc at 53, Eisenkot's at 48, and Arab-led parties at 19, so no side has 61; Herzog begins consultations 04 NOV. Fresh 01 NOV: Fox's live page headlined that Trump and Rubio say more strikes remain on the table "but not likely before midterms"; Al Jazeera quoted Trump that the US still has several targets to "take care of" and is "not in a hurry."

US IMPACT ASSESSMENT

Every operational indicator now points to a decision window opening 04 NOV. A short campaign aimed at energy and nuclear sites would expose US bases, embassies, and Gulf energy to retaliation that Iran has said will not be geographically limited. The $47.1 billion

cost, mostly munitions, and the third carrier's late-November arrival suggest planning for more than a single night. Israel's deadlocked result leaves Washington's main partner with a caretaker government during any operation.

SOURCE SYNOPSIS

CNN (26 OCT, read directly); WSJ (via Iran International and Axios); AP via Gulf News and Fox; Axios (29 and 31 OCT); Reuters and CBS (cost, deaths via DCAS); Times Now and Times of Israel (carrier/MEU, MSNOW, OSINT flights); Al Jazeera; Iran International; Jerusalem Post; Fox News Digital live pages (incl. fresh 01 NOV); Ynet; Al Jazeera (fresh 01 NOV).

MEDIA FRAMING (RIGHT)

Fox led with the 96-hour readiness report, the Cooper briefing as "potential U.S. military options," Khamenei's order to put "U.S. and Israeli assets within striking range," and Dan Hoffman's view that Iran wants a "forever war." TheBlaze clipped Trump's rally line "On the way back from Iran, we're going to drop Marco off in Cuba" and Vance saying Trump "is not going to let Iran become a forever war." Tim Pool ran a poll asking whether the US will "nuke Iran." No Daily Wire, Crowder, Glenn Beck, or S2 Underground strike analysis was found.

MEDIA FRAMING (LEFT/MAINSTREAM)

CNN stressed "a question of when, not if" and asked whether there is an end-state strategy; the WSJ framed warnings as pressure "to muscle Tehran to the negotiating table"; CBS and Reuters stressed the rising cost; NPR framed a renewed conflict "after monthslong pause"; Al Jazeera described "mixed signals" from Trump.

CONFIDENCE

HIGH on all quoted statements, the cost and casualty figures, the carrier/MEU orders, and Khamenei's order. MODERATE-HIGH on the 96-hour and Gulf-warning reports (anonymous, multiple outlets). MODERATE on the 04 NOV timing and the seven-day plan. HIGH that no US strike on Iran occurred this week. LOW that Rezaei's NPT remark reflects a decision.

ITEM 2: Iran diplomacy — Tehran four-nation meeting; Vance letter to Rezaei; Qatari talks move from Tehran to Doha; "breakthrough" report denied; Iran offers two-day Hormuz reopening on its terms (Significance: HIGH)

WHAT / WHERE / WHEN

26 OCT–01 NOV Tehran / Doha / Washington / Moscow / Atlanta. Mon 26 OCT Saudi Defense Minister Khalid bin Salman, Pakistan's Field Marshal Munir, and Turkish intelligence chief Kalin met Pezeshkian, Araghchi, and SNSC secretary Rezaei; the joint statement said only that they "agreed to continue the dialogue." A Pakistani official told Reuters Munir presented a proposal "with US President Donald Trump's blessing." Treasury Secretary Bessent told Iran International that Iranians should not pay taxes and should stock up on fuel, and on 27 OCT said Treasury is tracking and freezing Iranian crypto. Tue 27 OCT Mojtaba Khamenei told Rezaei Iran's conditions must be met; Pezeshkian met Putin in Moscow; China said it will send special envoys. Wed 28 OCT Reuters reported Qatar gave Iran a seven-day draft on 25 OCT; a senior Iranian official called the ideas "unacceptable." The WSJ and NYT reported a Vance letter, sent at Trump's direction via Qatar, proposing early talks led by Vance; Trump said it was about "medical supplies." Thu 29 OCT Araghchi said Iran "continues to give diplomacy a chance." Fri 30 OCT Iranian agencies confirmed receipt of the letter but no reply; the Guardian reported it requires nuclear commitments at the start of a process to reopen Hormuz within seven days; Ambassador Barrack told CNN the sides are "very close" to "a timeout." Qatari mediators held more than 12 hours of talks in Tehran. Sat 31 OCT talks moved to Doha; Al-Araby Al-Jadeed reported a "breakthrough" and a US delegation, which a US official denied and Araghchi called "media speculation." Araghchi told Al Jazeera Iran can now reopen Hormuz within two days if the US lifts post-Islamabad sanctions, cuts forces in the region, restores the June oil waivers, releases all frozen funds, recognizes Iran–Oman shipping routes, and ends the war on all fronts including Lebanon; he called the Vance letter "a positive step." Rubio: "Talks have actually never stopped." Trump: talks are "going fine" but Iran is "not very reliable." Fresh 01 NOV: Iranian negotiators were in Doha for a third day; Araghchi told state media the "two-day proposal" talks were "ongoing and progressing" with no final conclusion and Iran is ready for "both defense and diplomacy" (Reuters via CNBC). The Guardian reports Qatar is trying to negotiate release of more than $6 billion in Iranian

assets and Gulf officials are “braced for the worst.” Iran’s Foreign Ministry designated Britain’s Royal Navy and Royal Air Force “terrorist organizations” and MI6 a “hostile group,” effective 01 NOV, citing UK base access for the war and the UK’s 13 JUL action on the IRGC (Xinhua; Tasnim; Iran International).

US IMPACT ASSESSMENT

The Doha track is the only thing that could move the post-election timeline, and the gap is still sequencing: Washington wants nuclear commitments first, Tehran wants sanctions and blockade relief first. Iran shortened its timeline (seven days to two) without changing its price. The UK designation adds risk for allied forces operating with the US and for British nationals in Iran.

SOURCE SYNOPSIS

Arab News Pakistan; Reuters (via Al Jazeera, Al-Monitor, Arab News, CNBC); Iran International; CBS live updates; Guardian (29 OCT and fresh 01 NOV); Axios; Al Jazeera (31 OCT and fresh 01 NOV); Times of Israel; Fox News Digital (fresh 01 NOV); Xinhua, Tasnim, Tehran Times, Iran International, Middle East Eye (UK designation, fresh 01 NOV).

MEDIA FRAMING (RIGHT)

Fox highlighted Bessent’s crypto freeze, Trump’s “not very reliable,” and the State Department’s warning of “consequences” for Iran’s “malign activities.” No Blaze, Daily Wire, Timcast, Crowder, Glenn Beck, or S2 Underground coverage of the talks was found all week.

MEDIA FRAMING (LEFT/MAINSTREAM)

AP framed the regional visits as trying “to avert renewed fighting”; the Guardian called the Vance letter possibly the “last chance to avert fresh conflict”; Al Jazeera paired “signs of diplomatic progress” with “sharp rhetoric”; Axios called it “dual tracks,” as before past strikes.

CONFIDENCE

HIGH on the Tehran meeting, Doha talks, Araghchi’s conditions, and on-record quotes. HIGH that the Vance letter exists; MODERATE on its terms. LOW on the “breakthrough” report (denied). HIGH on the UK designation (Iranian Foreign Ministry statement via multiple outlets). MODERATE on the $6 billion figure (Guardian, single outlet).

ITEM 3: Hormuz and Gulf shipping — UKMTO 182–188-26; first successful limpet-mine attack (Louise 1); RITI and Qatari LNG carrier Al Mayeda struck; IRGC mine claims disputed; Sinokor threat; Treasury says Iran has loaded no oil since 25 AUG (Significance: HIGH)

WHAT / WHERE / WHEN

26 OCT–01 NOV Strait of Hormuz, Arabian Gulf. UKMTO products this week: 182-26 (time-late; outbound tanker struck by unknown projectile in the strait 23 OCT, disabled, crew safe); 183-26 (vessel on fire 63 NM southeast of Al-Faw, Iraq, 26 OCT, cause unknown); a 29 OCT report of a vessel afire 9 NM north of Khasab, later identified by UKMTO as a trading dhow that sank, crew evacuated; 186-26 (tanker struck by unknown projectile outbound near Khasab, 1600 UTC 29 OCT, lost propulsion, identified by the Royal Navy of Oman as the RITI); 187-26 (small boat attached two explosive devices to the Panama-flagged tanker LOUISE 1 about 25 NM northeast of Khasab, 2212 UTC 29 OCT; engine-room fire, crew safe, voyage continued; Reuters’ sources call it the war’s first successful limpet-mine attack); 188-26 (Marshall Islands-flagged LNG carrier AL MAYEDA, owned by Qatar’s Nakilat, struck by projectiles about 40 NM south of Lavan Island, Iran, 1800 UTC 30 OCT; fire, crew of 25 safe, vessel operational). Fresh 01 NOV: JMIC Advisory Update 110 calls 188-26 the sixth attack inside the Arabian Gulf since 07 OCT and the first in the central Gulf this period, rates the Hormuz threat “SEVERE” and the Gulf “SUBSTANTIAL,” and warns AIS-on ships face elevated targeting risk; Qatar’s Foreign Ministry condemned the Al Mayeda attack and “reserves its right to take all necessary measures”; no one has claimed it (JMIC; Qatar MOFA; Al Jazeera; EconoTimes). Iranian claims, none naming a ship: three tankers mined on the “unauthorized southern route” (29 OCT), a fourth burned east of the strait, two more “halted” (30 OCT), six including a VLCC (state TV, 30 OCT), four “violating” tankers burned (30 OCT), an MQM-170 drone captured west of the strait (29 OCT) and another intercepted over Qeshm (30 OCT), and a US drone attack on fishing boats off Qeshm (31 OCT). CENTCOM said mine claims “are not true” and the main routes are cleared; IRGC spokesman Mohebi: “Prove the claim… with

independent evidence, not a statement." Cooper: Iran's navy "is all at the bottom of the sea." Iran's Persian Gulf Strait Authority threatened "legal action" against Sinokor vessels from 01 NOV; Korean shipowners say the ships are sub-chartered; no action was found as of the fresh check. UKMTO's 30 OCT weekly report counts 153 warnings year to date and 59 of 81 projectile strikes since 06 JUL on the southern route; UKMTO counted 155 inbound and 122 outbound transits in the week to 28 OCT, about 70% below pre-war. A Treasury assessment ("Operation Economic Outcast," via Iran International) says Iran has loaded no oil since 25 AUG and Iranian oil unloaded abroad fell to about 400,000 bpd by 19 OCT.

US IMPACT ASSESSMENT

Three confirmed hits in about 26 hours (RITI, Louise 1, Al Mayeda), one by divers' charges and one in the central Gulf, show the threat has moved beyond sea mines and beyond the strait itself. That contradicts the "lanes are cleared" message even if Iran's mine claims are false, keeps war-risk premiums high, and brings Qatar, a key mediator, into the line of fire. Treasury's figures show the blockade is biting, which is Washington's main leverage in Doha.

SOURCE SYNOPSIS

UKMTO 182-26 and 183-26 PDFs (read directly); UKMTO via Anadolu, Public TV, Gulf News; JMIC Advisory Update 110 (fresh 01 NOV, search excerpt of PDF); Reuters via Arab News; Seatrade Maritime (Vanguard Tech); Qatar MOFA and Nakilat via Al Jazeera and EconoTimes (fresh 01 NOV); Clearwater Dynamics; CBS, CNBC, AFP, Xinhua (IRGC claims); CNN Arabic (CENTCOM); UKMTO weekly report No. 13 (excerpt); Iran International (Treasury); Reuters via Al-Monitor (Sinokor).

MEDIA FRAMING (RIGHT)

No Blaze, Daily Wire, Timcast, Crowder, Glenn Beck, or S2 Underground coverage of the ship attacks was found all week; Fox carried CENTCOM's position. Tim Pool reposted an account claiming the administration "plans to strike Iran directly" (see quarantine).

MEDIA FRAMING (LEFT/MAINSTREAM)

CNBC framed Iran's claims as "disputing U.S. claims that key shipping lanes had been cleared"; Seatrade called the limpet attack "an apparent change in strategy"; Al Jazeera counted more than 120 ships hit since the war began.

CONFIDENCE

HIGH on UKMTO and JMIC texts and the Qatar statement. MODERATE-HIGH on vessel identities (Oman, India, security firms). Attackers UNCONFIRMED for all three. LOW on every IRGC ship and drone claim and on the Qeshm fishing-boat claim. MODERATE on Treasury figures (secondary report of the document).

ITEM 4: Houthi–Saudi war — fire near Ras Tanura; Egypt authorizes defensive support; daily missiles toward Riyadh, the Eastern Province, and Taif; Aden airport hit; UK air defense in the kingdom (Significance: HIGH)

WHAT / WHERE / WHEN

25 OCT–01 NOV Saudi Arabia / Yemen / Egypt / Kuwait. Sun 25 OCT Saudi forces intercepted 10 ballistic missiles toward the south plus a missile and drone toward Riyadh (two hurt in Khamis Mushait); Riyadh's airport reopened and Houthi spokesman Saree called it "a military target." Mon 26 OCT the coalition said it destroyed four launchers and five missile tunnels; Egypt's parliament approved, by two-thirds, defensive military support for Saudi Arabia (air defense and aircraft, no ground troops in Yemen). Tue 27 OCT Saudi Arabia contained a fire near the Ras Tanura export terminal after an attack (Bloomberg) and said it intercepted three missiles toward the Eastern Province; the Houthis claimed a refinery hit, which Saudi Arabia has not confirmed. Debris damaged property in Riyadh that evening. Wed 28 OCT a missile toward Taif was intercepted; a Houthi missile landed inside the Aden airport perimeter, the sixth attack on that airport per Yemen's transport ministry. Kuwait summoned Iran's envoy over an assassination plot case. Thu 29 OCT Saree claimed six attacks (Ras Tanura, Rabigh, Abqaiq, Riyadh and Dammam airports, Najran); Saudi Arabia reported two missiles intercepted toward Riyadh, with shrapnel wounding one. Fri–Sat 30–31 OCT the coalition reported a launch toward the Medina region (Houthis denied targeting it), over Riyadh, the Eastern Region, and toward the south. At the Manama Dialogue (31 OCT)

	UK minister Stephen Doughty said Britain has deployed air-defense equipment and personnel to Saudi Arabia. The UN says more than 1,600 have been killed and over 275,000 displaced in Yemen since fighting reignited this summer.
US IMPACT ASSESSMENT	The Houthis are now aiming at both of Saudi Arabia's export outlets (Ras Tanura on the Gulf, Yanbu and Rabigh on the Red Sea), so any confirmed damage would push oil higher on top of the Hormuz premium. Egypt, the UK, and Pakistan are filling defensive gaps without US forces, but US air-defense assets in the kingdom are already stretched before any Iran campaign.
SOURCE SYNOPSIS	Saudi coalition statements and SPA; Arab News; Al Jazeera; The National; AP; Bloomberg via The Edge; Reuters via Al-Monitor and Straits Times; Saba (Houthi); AFP via CBS, The Hindu, and Dawn; Iran International (Manama Dialogue).
MEDIA FRAMING (RIGHT)	Fox listed intercepts in its live pages and led its 01 NOV page with the US Embassy airport warning; no other tracked right-leaning outlet covered the Saudi front.
MEDIA FRAMING (LEFT/MAINSTREAM)	Reuters and Bloomberg focused on export risk and Saudi silence on damage; Al Jazeera framed attacks as continuing "despite" the Tehran meeting; AFP said the strikes threaten "the kingdom's economic diversification plans."
CONFIDENCE	HIGH on Saudi-reported intercepts, debris injuries, the Egypt vote, and the Aden strike. HIGH that a fire near Ras Tanura was contained; LOW on any refinery damage. LOW on Houthi target claims. MODERATE on the Medina claim (disputed).

ITEM 5: Force protection and the Pentagon — NYT: Iran preparing to target US diplomats; tighter Riyadh embassy rules; troop rotation pause; Hegseth fires J5 Lt. Gen. Sylvia, who reportedly admitted leaks (Significance: MEDIUM–HIGH)

WHAT / WHERE / WHEN	24 OCT–01 NOV. The NYT reported (24 OCT) that two Iranian officials, one IRGC, confirmed Tehran is preparing to target US diplomats and personnel as "fair game," tracking the DNI memo reported last week. On 25 OCT the US Embassy in Riyadh required chief-of-mission approval for staff to use any Saudi airport, barred travel within 20 miles of the Yemen border, and restricted travel to Jizan, Asir, Najran, Qatif, Yanbu, and Taif; the ordered departure in effect since 23 OCT continues, and the US Mission still warns of "extreme caution" around airports (01 NOV). CNN reported nonessential troops in the next rotation will not be sent and other embassies may get departure orders or caps; no new orders were found by 01 NOV. On 28 OCT Hegseth fired Lt. Gen. Brett Sylvia, the Joint Staff J5 (strategy, plans, and policy). A Pentagon official told CBS he was accused of leaking classified information on the Iran and Ukraine wars and was referred to DOJ; Axios (29 OCT), citing an internal report, said he admitted on video, after failing four polygraphs, to leaking to two reporters over about a year; the Washington Post reported a criminal referral. Sylvia has not commented and no replacement has been named. He is the second J5 removed under Hegseth.
US IMPACT ASSESSMENT	The government is cutting exposure in Saudi Arabia ahead of possible retaliation, and the plans post that ties the Chairman's war plans to the President is vacant days before a possible campaign. The leak case also signals a tighter information clampdown around Iran planning.
SOURCE SYNOPSIS	NYT via Times of Israel and Jerusalem Post; The National (embassy notice); Hindustan Times and Fox (01 NOV alert); CNN (26 OCT); CBS/AP; The Atlantic; Axios (29 OCT, read directly); Washington Post; The Hill.
MEDIA FRAMING (RIGHT)	Timcast News said Sylvia "ADMITTED" leaking and that critics who called it a purge were answered by "the revelations"; Fox put the airport warning atop its Iran page.
MEDIA FRAMING (LEFT/MAINSTREAM)	AP and the Post framed the firing as the latest in a string of senior removals "even as Trump considers new Iran strikes"; CBS quoted Sen. Mark Kelly calling it a purge; the NYT called the diplomat threat "a new level of threat and fear."

CONFIDENCE	HIGH on the embassy rules, ordered departure, and firing. MODERATE-HIGH on the NYT report (anonymous Iranian sources). MODERATE on the leak admission and polygraph count (internal report via officials; no comment from Sylvia).

ITEM 6: US economy — significant economic events of the week: Fed holds 10–2 with two hike dissents; Q3 GDP 3.4%; PCE 3.6%; AI selloff (Intel −28.6%); S&P 500 third weekly loss; Brent ends October up ~14%; OPEC+ holds; pump prices fall (Significance: HIGH)

WHAT / WHERE / WHEN	26 OCT–01 NOV. Fed: on 28 OCT the FOMC held the target at 3.75%–4.00% in a 10–2 vote; Governor Lisa Cook and Cleveland's Beth Hammack dissented for a quarter-point hike; the statement says "inflation remains elevated." Chair Warsh said Q3 growth "appears" above 3% and announced that from 2027 one of eight meetings will be a strategy session with no rate vote. The Bank of Canada raised to 2.5%; the ECB held at 2.5% and Lagarde will leave in February. Data: BEA's advance estimate put Q3 GDP at a 3.4% annual rate (Q2 2.2%); September PCE prices rose 0.5% m/m and 3.6% y/y, core 0.3% and 3.1%; real disposable income fell 0.3% and the saving rate was 3.8% (29 OCT). UMich final October sentiment was 48.0 with one-year inflation expectations of 4.7%; the Q3 Employment Cost Index rose 3.4% y/y (search summaries). Markets: Monday through Wednesday rose on chips and Anthropic-linked financing (Broadcom +4% on 27 OCT; Oracle nearly +11% on 28 OCT). Alphabet fell 12% on 29 OCT after missing estimates with negative free cash flow; Amazon and Intel fell after hours; on 30 OCT Intel fell 28.6% (worst since 1974), the S&P 500 fell 1.82% (worst day since June), and the Nasdaq 2.86%, 7.8% below its 06 OCT record. Weekly (23 OCT to 30 OCT closes): S&P 500 7,623.68 → 7,580.07 (−0.57%), Nasdaq 25,955.34 → 25,437.00 (−2.00%), Dow 52,215.16 → 51,770.31 (−0.85%); the S&P 500's third straight weekly loss. The 10-year traded above 5.02% intraday on 28 OCT and closed 30 OCT at 4.931%. Energy: Brent's December contract went from $116.72 (23 OCT) to $117.63 at expiry on 30 OCT (+0.78%), up about 13.6% for October; the January contract settled $113.43. WTI settled $104.12 (from $103.27, +0.82%). On 01 NOV the seven core OPEC+ members kept December targets flat; next meeting 29 NOV. Pumps: AAA national regular fell from $4.2892 (25 OCT) to $4.1732 (01 NOV) and diesel from $6.3474 to $6.3039. Earnings beats: Microsoft (Azure +48%), Exxon Mobil, Chevron. Weekly deltas are computed from the archive's sourced closes.
US IMPACT ASSESSMENT	Growth above 3% with 3.6% headline inflation and falling real incomes is a stagflation-tinged mix that keeps a December hike in play. The AI selloff is the first broad hit to household stock wealth in months and lands days before the vote. Gasoline is falling about a penny a day, but October's 14% oil gain and any post-election strike could reverse it; diesel, which drives Minnesota farm and freight costs, remains above $6.
SOURCE SYNOPSIS	Federal Reserve statement and Warsh transcript; BEA GDP and Personal Income releases (via release text); CNBC; Reuters (via Euronext, Investing.com, StreetInsider, Financial Newsletter); AP; Dow Jones via Morningstar; Capp Notes (secondary); University of Michigan and Cornell ILR (search summaries); OPEC statement; The National; AAA (01 NOV, primary).
MEDIA FRAMING (RIGHT)	Fox framed the hold as coming "six days before the midterm elections, as inflation continues to weigh"; Tim Pool's show ran "Stock Market PLUNGES Ahead of Midterms, GOP Facing BLOODBATH," and a Timcast panelist said "This is not good for Donald Trump." No Blaze, Daily Wire, or Glenn Beck coverage of GDP, PCE, or the Fed was found.
MEDIA FRAMING (LEFT/MAINSTREAM)	AP framed the Fed as holding "despite stubbornly high inflation"; CNBC called Cook's dissent "a stunner" and the data "better-than-expected" growth "as September inflation accelerates"; Reuters framed the selloff as "fears that hefty cash-burning AI investments may not deliver."
CONFIDENCE	HIGH on the Fed decision, BEA data, closes, settlements, OPEC+, and AAA. MODERATE on UMich, ECI, and the 13.6% monthly Brent figure (secondary). Weekly deltas HIGH (computed).

ITEM 7: Russia–Ukraine — Oleshky truce holds ~87 hours and evacuates 750+; Kyiv, Dnipro, Chernihiv strikes; $2.1 billion Patriot sale; Rubio weighs Black Sea ceasefire; truce ends 01 NOV (Significance: MEDIUM–HIGH)

WHAT / WHERE / WHEN

26 OCT–01 NOV. Late 26 OCT Russia hit Kyiv with ballistic missiles and drones (Zelenskyy: 16 ballistic missiles, 280 drones), injuring at least 14, mostly students at a dormitory, and closing the Southern Bridge. The Oleshky ceasefire began at 0300 Kyiv on 27 OCT, two days early; Melania Trump said it was expanded within Kherson Oblast. It held 54 hours by 29 OCT and about 87 hours overall with no violations reported by either ombudsman; the joint mission entered on 30 OCT with 25 buses and about 50 medical staff; Russia's ombudsman said a sapper and one other person were killed during demining. More than 750 residents left, most to Ukraine via Crimea, Anapa, and flights to Gomel, Belarus; Reuters says Pope Leo XIV was also involved. Russia proposed making such missions regular. ISW notes Ukrainian claims of Russian drone use and troop rotation during the pause. On 29 OCT a Russian jet drone hit a train at Dnipro station, killing at least 15; Chernihiv and Kremenchuk strikes killed five more; 27 were killed nationwide in a day. On 30 OCT State approved a possible $2.1 billion sale of 500 PAC-3 MSE interceptors to Ukraine, paid by Canada, Germany, Norway, and EU-backed funds. Overnight into 01 NOV Russia launched 433 drones (371 downed) and cut power in four regions; Zelenskyy cited "the deficit of ballistic missile interceptors." At the G20 in Atlanta (ended 31 OCT without a joint statement), Rubio said the US is reviewing Turkish and Indian proposals for a limited Black Sea ceasefire and spoke briefly with Lavrov about a possible Trump–Putin meeting at APEC or the December G20 at Doral. The local truce was set to end 2259 Kyiv time on 01 NOV with no extension announced.

US IMPACT ASSESSMENT

Oleshky is the first completed joint humanitarian operation of the war and a concrete pre-election deliverable for US mediation. But Russia's heavy strikes elsewhere and Ukraine's interceptor shortage, which competes with Gulf and Israeli demand for the same Patriots, show the wider war is not slowing. The Abu Dhabi trilateral talks expected around 10 NOV are the next test.

SOURCE SYNOPSIS

Kyiv Independent; Kyiv Post; Ukrainska Pravda; RBC-Ukraine; Ukrinform; NV; Hromadske; Anadolu; Al Arabiya; AP; BBC; RFE/RL; Reuters (via NBC and Investing.com); ISW; RTE; State Department sale notice via AP, Al Jazeera, BBC, NBC.

MEDIA FRAMING (RIGHT)

Fox played up Melania Trump's "much bigger role" as intermediary; no other tracked right-leaning outlet covered Ukraine this week.

MEDIA FRAMING (LEFT/MAINSTREAM)

AP called Oleshky "the most significant truce" of the war and a "major rescue operation"; the Guardian led with European outrage over Dnipro; NBC/Reuters headlined strikes "despite Trump's energy ceasefire push."

CONFIDENCE

HIGH on the truce, mission completion, strike tolls, the Patriot approval, and Rubio's remarks. MODERATE on the 750+ figure (final split not published). LOW on Fox's "exclusive intermediary" report.

ITEM 8: Elections and justice — DOJ loses California ballot fight three times; judge bars intimidation of election officials; Comey Espionage Act charge; Alaska "Decoy Dan" probe; ~1,000 DOJ monitors; Haley Stevens backs Rogers (Significance: MEDIUM–HIGH)

WHAT / WHERE / WHEN

26 OCT–01 NOV. California: on 26 OCT a Ninth Circuit panel dismissed DOJ's emergency appeal 2–1 ("The United States' claimed emergency, at least in part, is a self-constructed one"); on 28 OCT Judge David Carter denied DOJ's TRO ("Never before in American history has the federal government, on the eve of an election, sought to coerce a state…"); on 30 OCT the Ninth Circuit denied DOJ's renewed request 2–1, citing "a material risk" of disenfranchisement (Bumatay dissenting: "We should have let them try"). Judge Trina Thompson then issued a TRO through 16 NOV barring DOJ and DHS from actions that "threaten, intimidate or coerce" election officials. No Supreme Court filing was found by 01

NOV. Carter set a 13 NOV hearing on the underlying suit. DOJ/FBI: a criminal information charging James Comey with communicating national defense information was unsealed 26 OCT; his motion to dismiss as time-barred is pending before Judge McFadden. A judge ruled DOJ unlawfully fired Maurene Comey. Trump offered a $1 million reward for voter fraud tips leading to convictions. The FBI searched the home of Democratic donor Stephen Cloobeck in the Swalwell probe (27 OCT). Alaska: the NYT reported Peltola-linked operatives helped recruit a second "Dan Sullivan"; DOJ issued at least three dozen subpoenas (NBC), Gov. Dunleavy ordered a state review, DOJ amended its certification suit calling it a "conspiracy," and Trump called for Peltola to be "prosecuted"; Peltola denies involvement and one NYT source retracted. Election Day: DOJ plans about 1,000 monitors in all 50 states, its largest ever; the NAACP and Advancement Project sued, calling it intimidation. Fresh 01 NOV: Democratic Rep. Haley Stevens endorsed Republican Mike Rogers over Democrat Abdul El-Sayed in Michigan's Senate race (her X post), and Trump praised her "bravery"; Sen. Chris Murphy (D-Conn.) was hospitalized after a stroke on 31 OCT and is "awake and alert," his office said (AP; NBC; CNBC). Fox reports a Fox poll has Texas's Paxton and Talarico tied at 49% in what it calls the most expensive non-presidential race ever.

US IMPACT ASSESSMENT

Federal attempts to set aside California ballots before Tuesday have failed, and a TRO now restrains DOJ and DHS through certification. The likely fights move to after the vote: Alaska certification, monitor access in states that limit them, and any challenge to close results. The Stevens endorsement shakes up a key Senate race in the final 48 hours.

SOURCE SYNOPSIS

Ninth Circuit orders and Carter order (via Courthouse News, NPR, AP, NBC, Reuters, Sacramento Bee); NBC and CNN (Thompson TRO); CNBC, NBC, AP (Comey); ABC, NBC (reward); AP, Politico (Cloobeck); NYT via CNBC; NBC, CBS (Alaska); Votebeat (monitors); NAACP; Haley Stevens and Fox News X posts (fresh 01 NOV); AP, NBC, CNBC, Connecticut Public (Murphy, fresh 01 NOV).

MEDIA FRAMING (RIGHT)

TheBlaze headlined "Comey charged with violating the Espionage Act" and on California "it's not over"; Timcast called Alaska an "alleged Democratic scheme" and demanded "immediate action before Election Day"; Fox carried Vance calling Alaska "cheating" and Sen. Tim Scott on "Decoy Dan"; Tim Pool (01 NOV): "Dems are furious NYT did journalism exposing democrat corruption." Crowder said the Stevens endorsement "just made Tuesday night a hell of a lot" more interesting.

MEDIA FRAMING (LEFT/MAINSTREAM)

AP called the rulings "the latest setbacks" for efforts to control state-run elections; NBC called Thompson's order "sweeping" and noted experts say same-name recruiting may be legal; CNBC and NBC framed Comey as the third attempt to charge a Trump critic; the NAACP calls the monitors intimidation. TheBlaze carried Schumer calling attacks on El-Sayed "racist, Islamophobic."

CONFIDENCE

HIGH on all court rulings, the Comey charge, Alaska subpoenas, the monitor plan, the Stevens endorsement, and Murphy's hospitalization. MODERATE on the subpoena count and the Fox Texas poll (single poll).

ITEM 9: Minnesota — O'Keefe and Higby charged; Omar probe widens in the press, still uncharged; Pretti parents demand evidence; record early vote (Significance: MEDIUM)

WHAT / WHERE / WHEN

26 OCT–01 NOV. Omar: on 26 OCT House Democrats (175 signers per Fox) sent a letter opposing the 12 OCT HSI search. On 27 OCT DOJ told Judge Boasberg no charging decision has been reached and the warrant is "only partially executed," asking to keep records sealed; no ruling found. AP reports more than a dozen grand jury subpoenas since the search. The NYT (29 OCT) reported FBI and DHS found "some evidence" in 2016 that Omar's 2009 marriage to Ahmed Nur Said Elmi was a sham and that he may be her brother, but the case was time-barred; her office called it "a baseless political smear." The NY Post (30 OCT) published her 2009 marriage application with name edits, noting it is "not necessarily

	dispositive." Trump said she "is not her real name" and attacked "s***house countries"; DHS Secretary Mullin: "We're not intimidating. We're enforcing laws." Fresh 01 NOV: Just The News reports Mullin defended a "large" investigation involving multiple people; no charges have been filed. Election: Hennepin County Attorney Mary Moriarty charged James O'Keefe and Cameron Higby on 28 OCT with felony unlawful voting and identity theft over videos testing the vouching system in the 11 AUG primary; first appearance 16 NOV; Higby denies wrongdoing. Alex Pretti's parents (27 OCT) demanded DOJ release evidence in his January killing by immigration officers; Minnesota's Good/Pretti evidence suit has no ruling. Nearly 729,000 Minnesotans voted early by 30 OCT, versus 282,277 at that point in 2022 (Secretary of State via MPR); early voting ends 02 NOV and polls open 0700 Tuesday. Fresh 01 NOV: a polling aggregator cites KSTP/SurveyUSA (24–28 OCT) with Klobuchar up 12 over Demuth and NYT/Siena (19–25 OCT) at 56–38; Omar faces John Nagel (R) and DeVelle Jackson (I) in MN-5.
US IMPACT ASSESSMENT	The Omar case will stay a campaign weapon without a legal resolution before Tuesday; the probe's focus on her name, birthdate, and father's paperwork could avoid the time limit that ended the 2016 case, so a post-election filing remains possible. The O'Keefe charges put Minnesota's vouching law in the national election-integrity fight. Record early turnout should speed results.
SOURCE SYNOPSIS	Jayapal-posted letter (primary); Raw Story via DNYUZ (DOJ filing); AP; NYT via Patch, Mediaite, NBC; NY Post (read directly); Fox News; Just The News (fresh 01 NOV, search summary); MPR News; Hennepin County Attorney; NBC (Pretti); MultiState (polls, fresh 01 NOV, secondary); Minnesota SOS candidate files.
MEDIA FRAMING (RIGHT)	Glenn Beck, Timcast ("Ilhan Omar IS COOKED"), Ben Shapiro ("almost certainly committed immigration fraud," opinion), and TheBlaze ("Even the New York Times is pushing brother-marriage evidence") drove the Omar story; Timcast called the O'Keefe charges "political lawfare," and Tim Pool called O'Keefe "the greatest journalist of this generation."
MEDIA FRAMING (LEFT/MAINSTREAM)	Democrats called the search "weaponization of law enforcement"; Raw Story stressed there is no charging decision; the NYT and Patch stressed the statute of limitations and Omar's denial; MPR framed O'Keefe as influencers charged over YouTube videos and focused on record turnout and limited early-voting sites in greater Minnesota.
CONFIDENCE	HIGH on the DOJ filing's thrust, the O'Keefe charges, turnout, and that Omar is uncharged. MODERATE-HIGH on the NYT 2016 account. LOW on what the marriage document proves. MODERATE on the polls (aggregator summary) and the Just The News account.

MN / US COST SNAPSHOT

MN electricity (avg)	17.20¢/kWh residential, August 2026 — EIA Electric Power Monthly Table 5.6.A / Form 861-M (released 23 OCT 26; no newer month as of 01 NOV); US avg 18.16¢/kWh same month
MN gasoline (avg)	$4.0887/gal regular — AAA Minnesota as of 01 NOV 26 (week: $4.1991 on 25 OCT → $4.0887; −$0.1104; month ago $4.2623; year ago $2.8722); national AAA regular $4.1732/gal same day (from $4.2892 on 25 OCT; −$0.1160; month ago $4.4137)
MN diesel (avg)	$6.1606/gal — AAA Minnesota as of 01 NOV 26 (week: $6.2199 on 25 OCT → $6.1606; −$0.0593; month ago $6.2290; year ago $3.6264); national AAA diesel $6.3039/gal 01 NOV (from $6.3474; −$0.0435)
MN beef (avg)	$7.253/lb all uncooked ground beef, September 2026 — Midwest Census Region urban (BLS via FRED APU0200FC1101, checked 01 NOV 26; August $7.317; no newer month); Midwest proxy, no MN-specific series
Gold (spot)	$3,876.40/troy oz — gold-api.com XAU/USD as of ~1519 CST 01 NOV 26 (2026-11-01T21:19:37Z; weekend quote, unchanged since 31 OCT); down from $3,996.90 on 25 OCT (−$120.50, −3.0%); December COMEX gold settled $3,898.90 on 30 OCT, a one-year

	low (Capp Notes, secondary) (Kitco/LBMA not pulled; proxy feed)
US national debt	$40,593,637,262,883.48 total public debt outstanding — Treasury Fiscal Data Debt to the Penny, record_date 2026-10-29 (latest row as of 01 NOV ~1520 CST); up $149.3 billion from $40,444,342,709,389.15 on 22 OCT

LAST WEEK'S THREADS — STATUS

"Not today" and the pre-election pledge	held; no US strike. Theodore Roosevelt group and 13th MEU: ordered, arriving late November. Pezeshkian–Putin: met 27 OCT in Moscow. Qatari channel: active in Doha. Israel's election: 53–48–19, no majority; consultations 04 NOV.
UKMTO numbering past 181-26	now 188-26 (182, 183, 186, 187, 188 covered here; 184-26 and 185-26 not found). Gem No. 2 cleanup: no update found. Cable threats: no new reporting.
Egypt's vote	passed 26 OCT (defensive support only). Riyadh airport: open but targeted; partly operating per the US Mission. US decision on striking the Houthis: none announced.
FOMC	held 10–2. PCE: 3.6%/3.1%. Canada tariff changes (30 OCT), DPA project selections, and the DOE SPR exchange award: not confirmed this week.
Oleshky	completed, ~87 hours, 750+ evacuated. Abu Dhabi talks: still expected in November, no date confirmed.
Ninth Circuit and Carter	DOJ lost both, then lost again 30 OCT. Alaska suit: amended. Floris/Benavides: no new reporting found. Omar unseal: DOJ opposes, no Boasberg ruling. MN Good/Pretti evidence: no ruling.

LOOKING AHEAD (week of 2 – 8 November 2026)

1. Iran: Doha outcome and any US delegation; Iran's formal reply to the Vance letter; whether strikes begin on or after 04 NOV; Iranian retaliation targets; Rezaei's NPT signal; Israel's coalition consultations from 04 NOV.
2. Hormuz/Gulf: attribution for RITI, Louise 1, and Al Mayeda; Qatar's response; Sinokor "legal action"; UKMTO past 188-26; next JMIC update; transit counts.
3. Saudi/Yemen: Ras Tanura/Abqaiq/Rabigh damage confirmation; Riyadh airport; Egypt deployment if requested.
4. Economy: market reopening after the AI selloff (futures Sunday evening); October jobs report 06 NOV; Treasury yields near 5%; December FOMC pricing; oil after the Brent contract roll; OPEC+ 29 NOV.
5. Russia/Ukraine: any repeat Oleshky-style mission; Black Sea ceasefire proposals; Abu Dhabi talks; Patriot deliveries; possible Trump–Putin meeting.
6. Domestic: Election Day 03 NOV and results; DOJ monitors and the NAACP suit; any Supreme Court filing on California; Alaska certification; Comey motion; Murphy's recovery; Pentagon J5 replacement.
7. Minnesota: governor, Senate, and MN-5 results; Boasberg's Omar sealing decision and any post-election charges; O'Keefe/Higby first appearance 16 NOV; Good/Pretti evidence suit.

GAPS / LIMITATIONS THIS RUN

Built from the seven dailies (26 OCT–01 NOV) plus fresh 01 NOV afternoon checks: Reuters via CNBC, Al Jazeera, the Guardian, Fox News Digital, and Business Standard on the Doha talks; JMIC Advisory Update 110 (search excerpt of the PDF), Qatar's Foreign Ministry, Al Jazeera, and EconoTimes on Al Mayeda; Xinhua, Tasnim, Tehran Times, Iran International, and Middle East Eye on Iran's UK designation; AP, NBC, CNBC, and Connecticut Public on Sen. Murphy; Just The News on Omar (search summary); MultiState for Minnesota polls (secondary); AAA Minnesota and national pages; Treasury Debt to the Penny API; FRED; gold-api.com; and X feeds of TheBlaze, Glenn Beck, Daily Wire, Tim Pool/Timcast, Timcast News, Steven Crowder, S2 Underground, and Fox News. S2 Underground had no posts found all week; Louder with Crowder framing comes from Steven Crowder's X account. Several WSJ, NYT, and Axios stories were paywalled and read through other outlets. UKMTO 184-26 and 185-26 were not found. Markets had not reopened at DTG, so oil and stock figures are Friday 30 OCT. The Brent December contract expired 30 OCT; the January contract trades about $4 lower, so Brent quotes below $114 reflect the roll, not a decline. Electricity is August 2026; beef is a Midwest proxy; gold is a weekend proxy-feed quote, not Kitco/LBMA; the debt latest row is 29 OCT. Iranian, IRGC, and Houthi claims are unverifiable in real time.

UNCONFIRMED / QUARANTINED

- Al-Araby Al-Jadeed report of a US–Iran “breakthrough” and a US delegation to Doha: denied by a US official and by Araghchi. X News summaries on 01 NOV still describe the sides as “near” a preliminary deal; no government confirms that.
- Rezaei’s claim that the US “indicated its readiness” to accept Iran’s conditions: no US confirmation.
- IRGC and Iranian state media claims of three, four, and six mined tankers and two “halted” tankers (29–30 OCT), MQM-170 drone captures (29 and 30 OCT), and a US drone attack on fishing boats off Qeshm (31 OCT): no vessel names, no US confirmation; CENTCOM denies mine hits.
- Houthi claims of hits on Ras Tanura, Abqaiq, Rabigh, Riyadh and Dammam airports, and Najran; Houthi casualty claims from Saudi strikes; Saudi-outlet reports of intercepts over Medina.

Reports that an IRGC launcher near Sirik was struck on 25 OCT — activist and OSINT posts only.

Israel Channel 12 report of a Zamir–Netanyahu confrontation — denied by Defense Minister Katz.

- The Hormuz Letter account (reposted by Tim Pool) that the administration “plans to strike Iran directly”: overstates reporting of options and briefings.
- Glenn Beck’s leaked HSI Omar memo; Timcast “CHARGING MAY BE SOON”; Meridian’s “large case” report (Mullin’s “large” remark is now reported by Just The News but not by a major outlet in this review).
- Fox report that Russia and Ukraine named Melania Trump an “exclusive intermediary”; Bessent’s reported $1 billion in Iran-linked crypto; Timcast’s Microsoft buyout claim; X posts falsely claiming Pakistan’s ambassador was assaulted in Tehran (Pakistan’s embassy denied it).
- Trump’s 301% Iran inflation figure (Treasury’s report via Iran International cites about 90% in September).
